

# Join an online event led by civil society

## WHY ARE WE CONCERNED ABOUT NUCLEAR ENERGY IN SOUTH AFRICA?

TUESDAY  
29 OCTOBER 2024

10:00AM - 12:00PM CAT

ONLINE

### About the event

Please join us for an online discussion on all things nuclear and find out why members of civil society are concerned about this technology for South Africa.

Come along on a trip down memory lane and learn about the nuclear history of South Africa. Find out more about the life extension of the Koeberg nuclear power plant and its implications for the country. Learn more about the recent announcement by the Minister of Electricity and Energy to build more nuclear power stations and how a court case led by civil society organisations halted this process.

The speakers are:

**Liziwe McDaid**, Strategic Lead at The Green Connection

**Lydia Petersen**, spokesperson of the Koeberg Alert Alliance

**Makoma Lekalakala**, Director at Earthlife Africa

**Neil Overy**, Freelance Environmental Researcher and Research Associate in Environmental Humanities South at UCT

**Register for this meeting here:**
